SUMMARY

- **User-centric Frontend Developer recognized for 4 years of experience** in the web development and e-commerce space using React and CSS, underscored by a passion for scalable UI applications and technology integration.
- **Excels at designing responsive and engaging web applications**, demonstrated through the successful management and transformation of major e-commerce projects, with a strong focus on enhancing user experience.
- **Highly skilled in integrating user experience design with innovative frontend technologies** with a proven track record of creating and deploying new features tailored to meet user needs and align with business objectives.

EXPERIENCE

TeeTurtle Saint Louis, MO (Remote)
Frontend Development Lead *April 2023 – Present*

- Oversaw small and large-scale web development projects, directly improving the TeeTurtle eCommerce platform's user experience and system architecture using HTML, CSS, and JavaScript.
- Led the technical aspects of migrating and redesigning TeeTurtle's eCommerce store from a PHP-based platform to Shopify, focusing on a seamless user transition and optimizing the online shopping experience.
- Implemented the SCRUM framework within the engineering team, improving workflow efficiency and project delivery through the adoption of sprint-based tracking and management using Jira.
- Spearheaded the integration of modern web development practices, contributing directly to coding, troubleshooting, and refining the platform for better performance and scalability.

Frontend Developer *March 2021 – April 2023*

- Played a key role in the hands-on development and enhancement of the TeeTurtle eCommerce platform, employing advanced HTML, CSS, and JavaScript skills to improve site functionality and enhance the user experience.
- Specialized in transforming design concepts into high-quality, responsive frontend interfaces using HTML, CSS, and JavaScript, leveraging Adobe XD and Adobe Photoshop for initial wireframing.
- Enhanced online customer engagement by developing new functionalities and troubleshooting customer-reported bugs, ensuring a smooth and intuitive user experience on the online store.
- Implemented and managed Firebase hosting integrated with a push-to-deploy GitHub pipeline and Google authentication, facilitating secure and efficient collaboration on HTML prototypes.
- Spearheaded the creation of a company intranet application using Wagtail CMS and Django, optimizing internal processes and resource accessibility for employees.

SH1FT Digital Montreal, QC (Remote)
Frontend Developer Intern *November 2020 – March 2021*

- Contributed to the development of a React-based application to connect therapists with clients, collaborating closely with the CEO for strategic alignment.
- Translated UX wireframes into reusable React components, using a mix of languages, frameworks, and libraries to ensure the creation of dynamic, user-friendly, and responsive web pages.
- Integrated Firebase Authentication with Axios for sign-in functionalities and utilized Redux alongside Firebase Realtime for managing and displaying personalized, dynamic client and therapist data.
- Developed and implemented advanced search algorithms, leveraging Google Maps API, to efficiently match therapists and clients based on preferences and geographical distance.
